NO DISSOLUTION OF PARLIAMENT

Ilkase Prepared But Was Decided In Uniform of His' Rank, Receives It is Longer and Heavier and of All the Result of Mr. Mayall Forc- Treaty Has Been Signed by Hon- He Was Murdered in Cold Blood It Will Occur on Afternoon of July To Let Matters Drift Along.

Peterhof Sentiment in Parliament as Revolutionary Sentiment, Must be Suppressed.

Chief of Police to be Notified of Any Attempt to Print the Address To the Country.

St. Petersburg, July 21.-The acute crisis which faced the country yesterday has passed. On Thursday night a decision was reached to dissolve parliament today and a ukase to this effect was actually prepared but yesterday when it became apparent that the Constitutional Democrats, although they had obtained a nominal victory had virtually suffered a defeat and were anxious to retrieve their blunder, it was decided at Peterhof not to issue the ukase but to allow matters to drift along for the present. This morning Interior Minister Stolypin notified the chancery of parliament that he would appear in the house to-

day and answer interpellations.

The Nasha Shish says that the decision to postpone the dissolution of parliament was preceded by the receipt of what was practically an ulti-matum from the Goremykin ministry which demanded to be allowed to re-sign or that it be given a free hand.

The prevailing sentiment at Peterhof continues to be that a decisive step to suppress parliament as a revolutionary center will be necessary in the near future but there seems hope that the open breach between the Left and Constitutional Democrats, with the loss of prestige suffered by the latter, may so complicate the situation as to render the task of the government easier. All chance of the formation of a ministry composed of Constitutional Democrats is seemingly ended as it is plain that the Constitutional Democrats no longer control a parliamen-tary majority. The present situation cannot be prolonged and many com-petent judges believe that matters are rapidly moving toward a dictatorship.

The arrival of the guard regiments

at the capital has been followed by the strengthening of the patrols throughout the industrial quarters where the workmen are greatly excited by the complete suppression of the socialistic press. Orders have also been issued by all printing offices to notify the chief of porice immediately of any attempt to set up the address of the lower house to the country. The temper of the masses can be judged by the fact that mobs resisted the closing of the offices of the socialistic papers last night and that at meetings of the proletariat organizations of Moscow it was resolved to make the dissolution of parliament the signal for a general strike.

TALES TOLD BY REFUGEES FROM MEXICO.

New Orleans, July 21.—E. J. Mathes, one of the party of 52 American men-women and children who left Mexico because of anti-foreign threats and passed through New Orleans late last light en route to Cincinnati, said:

One of the most alarming features of the situation is the fact that the Mexican servants have joined in the anti-foreign movement and the wives of foreigners are in mertal terror of their families being poisoned. I was reluctant to leave the country, but I simply could not resist the pleadings of members of my family

The anti-foreign movement is strongest in the northern and central portions of Mexico, where the natives have been wrought up to a high pitch of excitement by agitators and agents of revolutionary societies. Along the Rio Grande border the movement is not so strong because the Mexicans fear the Texans who know how to

The army is recruited from the The uprising is scheduled to occur in September and it probably will be nec-essary for the United States to throw an army across the border in order to protect American citizens.

The anti-foreign sentiment is grown to such an extent that I do not believe the Mexican government can cope with

Washington, July 21,-A sample of distinguished military assemblage, Maj. | the new French small arm, the imthe war department, and is being carecross of chevaller of the Legion of Hon- | fully examined by the experts. The gun is about four inches longer than the new American rifle, slightly smaller in caliber and a pound or two heavier, but it does not appear that it surpasses the American arm in range, accuracy or other valuable qualities. The magazine extends in a line with the barrel like an American sporting rifle and the gun uses no clips; consequently it is slower to load than our own gun. The center of gravity is continually shifting with the movement of the ammunition in the magazine and there is danger that a shell in the magazine might be exploded by a sharp blow of the stock upon the ground, causing the pointed bullet of one shell to strike the primer of the one above it. A queer ribbed bayonet over 20 inches in length, fitted with a sword handle of aluminum gives the French gun a formidable appearance, but our ordnance officers think better of our knife bayonet.

THE NEW FRENCH MAN AND MANAGER PEACE FOR SOUTH NOW AT "OUTS"

ing Mr. MacLean to a "Show Down."

Story of How Two Bingham "Angels" Were Drawn Into Backing From Which They Retreated.

MacLean and Mortimer Said to be Booked for "Ten Cent" Turn on The Bon Ton Circuit.

The stock company which played to such splendid business at the Orpheum and later at the Salt Lake theater is no more. The members of this aggregation of talented players, or perhaps to be more correct all save two, met yesterday and officially disbanded. The are being received by wire for engagements and dates.

In the meantime P. G. MacLean and Gus Mortimer are seriously consider-ing an offer from a 10-cent vaudeville circuit which has a house in this city to "go on" with a turn by way of a pot boiler until the clouds roll by and the regular theatrical season opens up.

MANAGER AND MAN CROSS.

Behind this statement is a story of dissension, alleged misrepresentation and a general muddle. Some of the members of the company have not re-ceived their salaries in full, they claim P. G. MacLean accuses Herschel May-all, the handsome and popular leading man, of undermining him in spite of contracts he holds. Mr. Mayall, or the other hand, avers that MacLean cannot produce the contracts, and to back his claim has documentary evidence in support from theatrical man agers who aver that MacLean is overstraining the truth when he says that he holds contracts to appear in their

MEMBERS CUT MACLEAN OUT.

The members of the company pre-fer to believe Mr. Mayall and decline to have anything whatever to any shape or form with MacLean.
"Had it not been for the action taken by Mr. Mayall," declared one member of the company with emphasis this morning, "we would all now probably have been stranded on the Nevada desert somewhere around Goldfield. We have that confidence in Mr. Mayall that we will abide by anything he says. If he says he has an engagement we will follow him anywhere, but MacLean, no thanks."

THE NEVADA BOOKINGS.

It will be recalled that it was announced with a great flourish of trum-pets at the close of the engagement of the company at the Salt Lake Thea-ter that the enire company was going Reno this week and would play there three nights, then go on to To-nopah and Goldfield and work their way to the coast by the time their en gagement at the McDonough theater, Oakland, opened.

MAYTLL STEPS IN.

by Manager MacLean and Mr. Dewey, a member of the company, was commissioned to go ahead as advance agent. Handsome paper was struck off on the presses in this city and everything even down to the securing of transportation (one way) was 8 cured for Mr. Dewey. At this stage of the game Mr. Mayall stepped in and emphatically asserted that "that boy is not going to Goldfield, or any other place unless the money is put up so that he can get home again.

MacLEAN'S "ANGELS."

This was the first rift in the lute and MacLean apparently then went out to rustle some backing. Finding no "angel" in Salt Lake he went to Bingm, where he encountered two gentle men who were so entranced with the isions of wealth to be plucked backers of a theatrical company that they consented to put up the necessar; ey to see the players through unt! they arrived in Oakland, and entered on their long engagement secured for them through the untiring efforts of P

TELLTALE TELEGRAMS.

In the meantime Mr. Mayall started the wires working and telegraphed P. Hall, manager of the McDoneugh theater, Oakland, Cal. Here are the telegrams that passed between Messrs. Mayall and Hall: "Has MacLean booked me with you if so wire full particulars.

"Important letter awaiting MacLean at Reno, declining date here. Elleford continues. HALL."

ASKS FOR SHOW DOWN.

Then it was that Mr. Mayall ap proached MacLean and insisted that something definite about the future movements of the company be forth-coming. MacLean insisted that there had been a mistake, as he held a contract from Mr. Hall to put the compresence Mr. Mayall there and then sat wn and wrote the following tele

Armed with this, Mr. Mayall in duty

bound showed the answer to the members of the company, and to the two backers from Bingham. And now the local Rialto is threatened with a detuge of gore. MacLean is sore and the company is full of gratitude to Mr. All sorts of law sults are threatened

over the muddle. The members of the company deny their allegiance to their manager, while he threatens to bring the law agin sundry and divers MAYALL MAKES ANSWER.

Mr. Mayall's story told this morning was a dignified one. He claimed that no good, would come of airing the trou-ble in the newspapers. Finally when told that he was accused of being the means of breaking up the company he
